

COMPANY PROFILE

BIOGOLD NIGERIA LTD.

Driving Innovation,
Empowering Industries

INTRODUCTION

Biogold Nigeria Limited's journey from its establishment as an enterprise in 2008 to its incorporation as a Limited Liability Company in 2018 reflects its commitment to growth and professionalism.

The range of services offered by Biogold, includes:

Marine vessel supply, Asset Integrity Management, Environment Impact Assessment, Dredging, Logistics, Engineering, Procurement, Construction, Installation (EPCI), Manpower supply, and Project management.

In the dredging division, Biogold's services, such as shoreline protection, sand filling, stockpiling, channel clearing, and land reclamation, demonstrate its capabilities in environmental and infrastructural projects. This aligns with the company's commitment to providing efficient, timely, and cost-effective solutions to meet client expectations.

The core principles guiding Biogold's operations are evident in its dedication to delivering solutions that are fit for purpose, economically competitive, and designed in accordance with international codes, standards, and client specifications. Emphasizing safety in construction, installation, and commissioning underscores the company's commitment to ensuring a secure working environment.

Biogold's proactive approach to staying updated on relevant technologies and providing ongoing training for its personnel reflects a commitment to continuous improvement. This dedication to evolving processes, personnel, techniques, and workflow positions the company at the forefront of advancements in its field.

Overall, Biogold Nigeria Limited's corporate philosophy revolves around understanding project uniqueness, meeting and exceeding client expectations, adhering to international standards, prioritizing safety, and embracing innovation. These principles collectively contribute to the company's success in delivering effective and reliable solutions across various sectors.

OUR MISSION

To execute and provide solutions utilizing industry best practices and equipment to meet and surpass our clients' expectations.

OUR VISION

To be the reliable technical partner of choice for our clients and become the industry leader for providing turn-key solutions to our clients.

OUR VALUES

We are proud to epitomize: Uncompromising Integrity – Professional Competence – Safety – Highest Quality Standards – Cost Effectiveness

OUR COMMITMENT

At Biogold, we understand the unique nature of every project. ***Our commitment revolves around:***

Fit-for-Purpose Solutions:

Creating solutions that are ultimately fit for purpose, economically competitive, and viable.

Exceeding Expectations:

Striving to meet the needs of our clients and consistently exceeding their expectations.

Adherence to Standards:

Designing solutions in line with international codes, standards, and, most importantly, our clients' specifications and requirements.

Safety First:

Prioritizing safety throughout the construction, installation, and commissioning phases.

HEALTH & SAFETY POLICY STATEMENT

SCOPE

This Policy applies to all activities carried out by Biogold Nigeria Ltd employees at all sites.

POLICY

At Biogold Nigeria Limited our aims are to:

- Comply with all Health & Safety Legislation, Regulations, Codes of Practice and Guidance Notes.
- Ensure our activities are conducted safely, protecting the health of employees and all others who may be affected.
- Manage our activities to meet all relevant laws and regulations.
- Set Health & Safety targets and maintain an improvement plan to address areas where measurement has indicated an improvement is necessary.

To achieve our aims, we will:

- Provide and maintain safe and healthy working conditions for all our employees and all others who work on our behalf.
- Identify risks and where they cannot be eliminated, control them to an acceptable level.
- Value the efforts of all employees in the field of Health & Safety equally with their other contributions to the business.

- Require every employee, and others who work on our behalf, to exercise personal responsibility in preventing harm to themselves and others
- Actively work to prevent all workplace accidents and near miss incidents
- Encourage the open reporting of all accidents and near miss incidents and their investigation to facilitate the prevention of recurrence
- Provide such information, instruction and training as needed to enable employees to co-operate fully with us in achieving compliance with the policy.

Signed

FAWUMI ABIODUN
(MD/CEO)

QUALITY POLICY STATEMENT

Biogold Nigeria Limited is committed to excellence in delivering quality products and services which meet and exceed the needs of our clients. Our Quality Management System has clearly defined quality objectives which comply with standard quality requirements.

The management is committed to achieving its quality objectives and has shown this commitment by establishing and operating a quality policy in accordance with standard quality requirements. The established policy is monitored to ensure effectiveness and continual improvement.

The Management is committed to communicate the company's quality policy, objectives and relevant quality requirements to all employees, clients and interested parties and is responsible to ensure that all project personnel are aware of the company's Quality Management System.

All personnel have the responsibility, authority and organizational freedom to identify and evaluate quality concerns and initiate solutions.

- Life Cycle Assessment
- Corporate Sustainability Management Strategy
- Waste Management & Pollution Control Studies
- Regulatory Compliance

At Biogold, our dredging division stands as a beacon of excellence, offering a comprehensive suite of services tailored to meet the unique demands of environmental and infrastructural projects.

OUR SERVICES

DREDGING SERVICES

At Biogold, our dredging division stands as a beacon of excellence, offering a comprehensive suite of services tailored to meet the unique demands of environmental and infrastructural projects.

Our commitment to quality and precision is evident in the following specialized dredging services:

Shoreline Protection

Preserving the integrity of coastal areas is paramount in mitigating erosion and safeguarding ecosystems. Biogold specializes in advanced shoreline protection techniques, utilizing state-of-the-art equipment and environmentally friendly methods. From erosion control structures

to innovative revetments, we ensure sustainable solutions that harmonize with the natural environment.

Sand Filling

Efficient sand filling is crucial for various projects, from construction to land development. Biogold leverages cutting-edge technology and a skilled workforce to deliver sand filling services that adhere to the highest industry standards. Our commitment to quality ensures a reliable and stable foundation for your projects, contributing to their long-term success.

Stockpiling

Managing and stockpiling dredged materials requires a systematic and strategic approach. Biogold excels in the organized handling and stockpiling of dredged materials, providing solutions that optimize space utilization and adhere to environmental regulations. Our expertise ensures that stockpiling is executed efficiently, supporting the seamless progress of your projects.

Channel Clearing

Navigable waterways are vital for maritime operations and environmental health. Biogold specializes in precise channel clearing services, utilizing advanced dredging techniques to remove sedimentation, debris, and obstacles. Our commitment to maintaining clear channels promotes safe navigation, minimizing risks and enhancing overall waterway functionality.

Land Reclamation

Transforming water into land opens up new possibilities for development. Biogold's land reclamation services are designed to expand usable space, whether for urban development or industrial

Land Reclamation

Transforming water into land opens up new possibilities for development. Biogold's land reclamation services are designed to expand usable space, whether for urban development or industrial purposes. Our approach combines technical expertise with environmental considerations, ensuring a sustainable and harmonious integration of reclaimed land into its surroundings.

Why Choose Biogold for Dredging Services?

- **Expertise:** Our team comprises skilled professionals with extensive experience in dredging operations.
- **Advanced Technology:** We leverage cutting-edge dredging equipment and technologies for precise and efficient results.
- **Environmental Responsibility:** Biogold is committed to eco-friendly practices, ensuring that dredging activities align with environmental regulations.
- **Customized Solutions:** Recognizing the uniqueness of each project, we tailor our dredging services to meet specific client requirements.
- **Timely Execution:** We prioritize efficiency, delivering dredging projects on schedule without compromising on quality.

Choose Biogold for unparalleled expertise in dredging services, where precision meets environmental responsibility. We look forward to transforming your visions into reality through our commitment to excellence.

EPCI SERVICES

Biogold Nigeria Limited excels in providing end-to-end Engineering, Procurement, Construction, and Installation (EPCI) services, ensuring a seamless and comprehensive approach to project execution. Our commitment to excellence, coupled with technical expertise, positions us as a trusted partner in turning your visions into reality.

1. Engineering Services

Biogold's engineering team comprises skilled professionals who bring innovation and precision to every project. From conceptualization to detailed engineering designs, our experts leverage the latest technologies and industry best practices. We tailor engineering solutions to meet the specific requirements of each project, ensuring robust and efficient designs.

2. Procurement Solutions

Efficient procurement is critical for project success. Biogold's procurement services are characterized by strategic sourcing, vendor management, and adherence to quality standards. We ensure timely and cost-effective procurement of materials and equipment, minimizing risks and optimizing the supply chain for seamless project execution.

Some of the products we supply are

- Process Equipment - Pumps, pipelines, xmas trees, fittings, control valves, etc
- Control Instruments - OEM Controllers, Switches, Flow Meters, etc
- Others - Heat exchangers, Vessels, Tanks, Separators, Scrubbers, Generators, Sand Separators, etc

3. Construction Management

Biogold takes pride in its prowess in construction management, overseeing every aspect of the construction phase with meticulous attention to detail. Our experienced project managers and construction teams ensure that projects are executed on time, within budget, and in

accordance with the highest quality and safety standards.

Our construction and installation works includes

- EPCI of Pipeline and piping facilities
- Construction and Installation of gas processing plants
- Construction and Installation of produced water treatment facilities
- Construction of Tank Farms and it associated facilities
- Equipment installation - pumps, compressors, etc.

4. Installation Expertise

The installation phase is where projects come to life, and Biogold brings unmatched expertise to this crucial stage. Whether it's installing complex systems, structures, or equipment, our teams are equipped with the skills and technology to ensure precision and reliability. We prioritize safety and efficiency in every installation process.

Biogold Nigeria Limited is your partner of choice for EPCI services, where expertise, innovation, and commitment converge to bring unparalleled success to your projects. Experience the difference with Biogold.

Why Choose Biogold for EPCI Services?

- **Comprehensive Approach:** Biogold offers a one-stop solution with EPCI services, streamlining the entire project lifecycle for our clients.
- **Technical Excellence:** Our engineering, procurement, construction, and installation teams are comprised of highly skilled professionals with a track record of successful project delivery.
- **Innovation:** We embrace innovative technologies and methodologies, ensuring that our EPCI services are at the forefront of industry advancements.
- **Quality Assurance:** Biogold is committed to delivering projects that meet and exceed international quality standards, providing clients with reliable and durable solutions.
- **Safety First:** Our unwavering commitment to safety extends to every phase of EPCI services, creating a secure working environment for our teams and stakeholders.

ASSET INTEGRITY MANAGEMENT

Biogold Nigeria Limited takes pride in offering specialized Asset Integrity Management (AIM) services, ensuring the longevity, reliability, and optimal performance of your critical assets.

Our comprehensive approach to AIM is designed to maximize operational efficiency, mitigate risks, and enhance the overall lifecycle of your assets.

1. Risk Assessment and Analysis

Biogold conducts thorough risk assessments and analyses to identify potential threats to asset integrity. Our experts employ advanced methodologies to evaluate risks associated with structural integrity, corrosion, and operational factors. By understanding these risks, we develop proactive strategies to mitigate and manage them effectively.

2. Inspection and Monitoring

Our AIM services include regular and precise inspection and monitoring of assets. Biogold utilizes cutting-edge technologies such as drones, sensors, and advanced imaging to conduct non-intrusive inspections. This enables us to detect potential issues early on, facilitating timely intervention and preventing costly downtime.

4. Maintenance Optimization

Biogold focuses on optimizing maintenance strategies to enhance asset performance while minimizing operational disruptions. Our AIM services include the development of predictive and preventive maintenance plans, ensuring that maintenance activities are strategically planned and executed to maximize asset availability.

5. Documentation and Compliance

Ensuring compliance with industry standards and regulations is a cornerstone of our AIM services. Biogold maintains detailed documentation of asset conditions, inspections, and maintenance activities. This not only aids in regulatory compliance but also provides valuable insights for informed decision-making and continuous improvement.

Why Choose Biogold for Asset Integrity Management?

- **Proactive Approach:** Biogold adopts a proactive approach to identify and address potential issues before they impact asset integrity.
- **Advanced Technologies:** We leverage state-of-the-art technologies for accurate inspection, monitoring, and data analysis.
- **Cost-Efficiency:** Our AIM services are designed to optimize maintenance costs by focusing on preventive measures and minimizing downtime.
- **Compliance Assurance:** Biogold ensures that all AIM activities align with industry standards and regulatory requirements, providing clients with peace of mind.
- **Experienced Professionals:** Our AIM team consists of experienced professionals with a deep understanding of asset management principles and best practices.

Choose Biogold for Asset Integrity Management services that prioritize the longevity and reliability of your critical assets. Our commitment to excellence ensures that your assets operate at peak performance, contributing to the success of your overall operations.

MARINE LOGISTICS SUPPLY SERVICES

Biogold Nigeria Limited stands as a leading provider of specialized marine logistics supply brokerage services, offering a diverse fleet of vessels to cater to the unique demands of the Oil & Gas, Maritime, and related industries.

Our commitment to efficiency, safety, and reliability positions us as a trusted partner in facilitating seamless marine operations.

1. Platform Supply Vessels (PSVs)

Biogold provides a fleet of state-of-the-art Platform Supply Vessels designed to support offshore operations. These vessels are equipped to transport essential goods, equipment, and personnel to offshore platforms. With advanced technology and experienced crews, our PSVs ensure the timely and secure delivery of supplies, contributing to the smooth functioning of offshore activities.

2. Anchor Handling Tug Vessels (AHTVs)

Our Anchor Handling Tug Vessels play a crucial role in supporting offshore activities such as rig moves, anchor handling, and towing. Biogold's AHTVs are equipped with powerful winches and towing capabilities, ensuring safe and efficient handling of anchors and other heavy loads. Our experienced crews and well-maintained vessels guarantee the successful execution of complex marine operations.

3. Tug Boats

Biogold's fleet of Tug Boats is designed to provide reliable and powerful assistance for various marine operations. These vessels are essential for towing, berthing, and escorting larger ships, ensuring precise maneuvering in confined spaces. Our tug boat services are characterized by experienced crews and well-maintained vessels, contributing to the safe and efficient navigation of marine assets.

Biogold Nigeria Limited is your reliable partner for Marine Logistics Supply Brokerage services, where excellence in vessel operations meets a commitment to safety and efficiency. Trust us to enhance the success of your offshore endeavors through our comprehensive and client-focused marine solutions.

Why Choose Biogold for Marine Logistics v Supply Brokerage?

- **Diverse Fleet:** Biogold offers a diverse and modern fleet of vessels, allowing clients to choose the most suitable options for their specific requirements.
- **Experienced Crews:** Our vessels are operated by highly skilled and experienced crews, ensuring the safe and efficient execution of marine logistics operations.
- **Safety First:** Biogold prioritizes safety in all marine operations, implementing rigorous safety protocols and adhering to industry standards.
- **Timely Delivery:** With a focus on efficiency, our marine logistics services are designed to ensure timely and reliable delivery of supplies and support for offshore activities.
- **Customized Solutions:** We work closely with clients to understand their unique needs, providing customized marine logistics solutions tailored to specific project requirements.

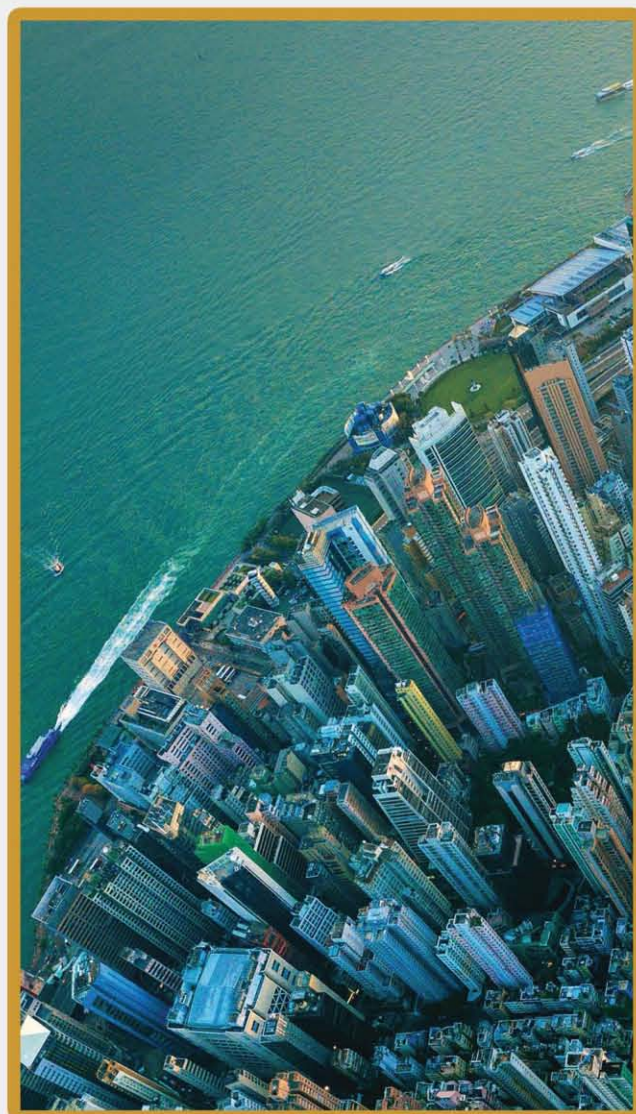

REAL ESTATE SERVICES

Biogold Nigeria Limited extends its commitment to excellence into the realm of Real Estate, offering a range of comprehensive services to meet the diverse needs of our clients.

From property sales and rentals to the management of serviced apartments and vacation properties, Biogold is your trusted partner in the dynamic and ever-evolving real estate landscape.

1. Property Sales

Discover your dream property with Biogold's dedicated real estate team. We specialize in facilitating seamless property transactions, ensuring a transparent and efficient process for both buyers and sellers. Whether you are looking for a residential haven, commercial space, or investment opportunities, Biogold guides you through the entire sales journey with professionalism and expertise.

2. Property Rentals

Biogold's real estate portfolio includes a diverse selection of rental properties, catering to various preferences and needs. Our rental services offer a hassle-free experience for both property owners and tenants, emphasizing fair agreements, timely maintenance, and a commitment to creating harmonious living or working environments.

3. Serviced Apartments

Experience the epitome of convenience and comfort with Biogold's serviced apartments. Ideal for short or extended stays, our serviced apartments combine the warmth of a home with the convenience of hotel-like services. Impeccably maintained and fully furnished, these apartments offer a flexible and luxurious housing solution for corporate travelers, expatriates, and those seeking a temporary residence.

4. Vacation Properties

Embark on memorable vacations with Biogold's curated selection of vacation properties. From serene beachfront retreats to urban getaways, our vacation properties provide a unique and immersive experience. Biogold ensures that your holiday is characterized by comfort, safety, and the joy of exploring new destinations, creating unforgettable memories for you and your loved ones.

5. Property Management

Biogold takes the stress out of property ownership with our comprehensive property management services. From routine maintenance to tenant relations, our dedicated property management team ensures that your real estate investment is well-maintained and optimally utilized. Trust Biogold to safeguard your property and enhance its value through diligent and professional management.

Why Choose Biogold for Real Estate Services?

- **Professionalism:** Biogold's real estate team is comprised of experienced professionals dedicated to delivering exceptional service with integrity and transparency.
- **Diverse Portfolio:** Our extensive portfolio offers a wide range of real estate options to cater to various preferences, budgets, and lifestyles.
- **Customer-Centric Approach:** We prioritize understanding our clients' unique needs, tailoring our real estate services to exceed expectations and provide personalized solutions.
- **Quality Assurance:** Biogold ensures that all properties, whether for sale, rent, or vacation, meet the highest standards of quality, safety, and comfort.
- **Efficiency and Reliability:** Count on Biogold for efficient and reliable real estate transactions, rentals, and property management services, reflecting our commitment to excellence.

Biogold Nigeria Limited is your partner of choice in the world of real estate, where integrity meets innovation, and client satisfaction is our top priority. Explore a new dimension of real estate services with Biogold – Your Gateway to Exceptional Living and Investment.

SAND AND AGGREGATE SUPPLY SERVICES

Biogold Nigeria Limited takes pride in being a reliable and efficient provider of premium-quality sand and aggregate supply services.

With a commitment to excellence, safety, and environmental responsibility, Biogold ensures a seamless and timely delivery of essential construction materials for diverse projects.

1. Premium-Quality Sand Supply

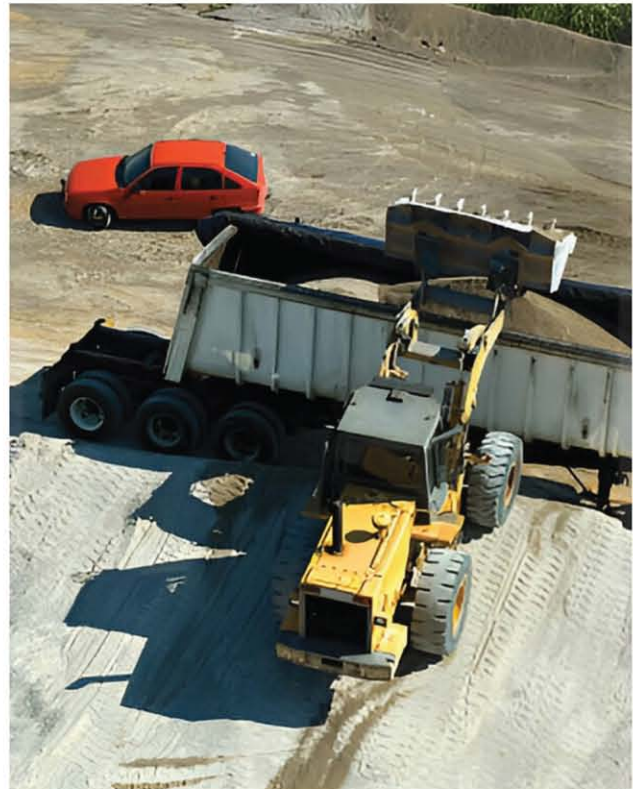

Biogold offers a consistent and reliable supply of premium-quality sand sourced from reputable locations. Our sand is meticulously processed to meet industry standards, ensuring optimal particle size, cleanliness, and uniformity. Whether for construction, landscaping, or other applications, Biogold's sand supply is tailored to meet the specific needs of your projects.

2. Diverse Aggregate Selection

Our aggregate supply services encompass a diverse selection of high-quality materials, including crushed stone, gravel, and other aggregates essential for construction projects. Biogold provides aggregates in various sizes and specifications, ensuring versatility and compatibility with a wide range of applications, from road construction to concrete production.

3. Timely Delivery and Logistics

Biogold understands the critical importance of timely material delivery in the construction industry. Our efficient logistics and supply chain management ensure that sand and aggregates are delivered to your project site promptly, minimizing downtime and optimizing construction timelines.

4. Quality Assurance and Testing

Biogold is committed to delivering materials that meet and exceed industry standards. Our sand and aggregates undergo rigorous quality assurance and testing processes to ensure consistency, durability, and compliance with project specifications. This commitment to quality guarantees the reliability and longevity of your construction projects.

5. Environmentally Responsible Sourcing

In addition to providing top-quality materials, Biogold prioritizes environmentally responsible sourcing practices. We adhere to sustainable mining and extraction methods, minimizing the environmental impact of our operations. Our commitment to eco-friendly practices ensures that your projects align with modern environmental standards.

Why Choose Biogold for Sand and Aggregate Supply?

- **Premium-Quality Materials:** Biogold supplies premium-quality sand and aggregates that meet or exceed industry standards.
- **Timely Delivery:** Our efficient logistics ensure timely delivery to project sites, minimizing delays and optimizing construction schedules.
- **Customized Solutions:** Biogold tailors its supply services to meet the specific requirements of each project, providing flexibility and versatility.
- **Quality Assurance:** Rigorous testing processes ensure that the sand and aggregates supplied by Biogold adhere to the highest quality and durability standards.
- **Environmental Responsibility:** Biogold's environmentally responsible sourcing practices contribute to sustainable construction and align with modern environmental standards.

Choose Biogold Nigeria Limited for reliable, efficient, and environmentally responsible sand and aggregate supply services. Our commitment to excellence ensures that your construction projects receive the essential materials they need for success.

PETROLEUM PRODUCT SUPPLY

Biogold Nigeria Limited is a trusted partner in the reliable and efficient supply of petroleum products, ensuring that businesses and industries receive premium-quality fuels to meet their energy needs.

With a commitment to excellence, safety, and environmental responsibility, Biogold stands as a leading provider in the petroleum product supply industry.

1. Diverse Range of Petroleum Products

Biogold caters to a diverse range of industries by supplying various petroleum products, including gasoline, diesel, aviation fuel, and lubricants. Our comprehensive product range ensures that clients have access to the specific fuels required for their unique applications, whether for transportation, industrial operations, or power generation.

2. Quality Assurance and Compliance

Quality is paramount in our petroleum product supply services. Biogold adheres to stringent quality assurance measures and industry standards, ensuring that the fuels we provide meet or exceed specifications. Our commitment to compliance ensures that your operations receive products of the highest standard, contributing to the efficiency and reliability of your processes.

3. Efficient Supply Chain Management

Biogold excels in efficient supply chain management, ensuring the timely and seamless delivery of petroleum products to our clients. Our logistics team is dedicated to optimizing delivery schedules, minimizing downtime, and providing reliable access to fuels that drive your business operations.

4. Safety and Environmental Responsibility

Safety is at the core of our operations. Biogold prioritizes safe handling, transportation, and delivery of petroleum products. We implement rigorous safety protocols and adhere to environmental standards,

emphasizing responsible practices to mitigate environmental impact and contribute to sustainable energy solutions.

5. Customized Solutions for Industries

Recognizing the unique needs of different industries, Biogold offers customized solutions for petroleum product supply. Whether for manufacturing, transportation, or power generation, our team collaborates closely with clients to understand their specific requirements and provide tailored solutions that align with their operational goals.

Why Choose Biogold for Petroleum Product Supply?

- **Reliability:** Biogold ensures a reliable and consistent supply of high-quality petroleum products to meet the energy demands of various industries.
- **Quality Assurance:** Our stringent quality control measures guarantee that the petroleum products supplied by Biogold meet the highest industry standards.
- **Efficient Logistics:** Biogold's efficient supply chain management and logistics team ensure timely and seamless delivery of petroleum products to client locations.
- **Safety Priority:** We prioritize safety in all aspects of our operations, from handling to transportation, ensuring a secure supply chain.
- **Environmental Responsibility:** Biogold is committed to environmentally responsible practices, minimizing the environmental impact of petroleum product supply.

PARTNERS

ENPPI

ENPPI is a major EPC contractor and management contractor, with decades of experience in onshore and offshore projects in the oil and gas, refining and petrochemical industries. ENPPI services cover Engineering, Procurement, Construction Supervision, Project Management and Control, E&I Installation, Pre-Commissioning and Commissioning and Start-up Asset Integrity Management (AIM) Laser Scanning and 3D Modeling.

Enppi

QINGDAO ALL UNIVERSE MACHINERY EQUIPMENT CO., LTD

Qingdao All Universe Machinery Co. Ltd is a One stop shop for water treatment solution and plant which combine Independent R & D, manufacturing and technology service since 2008.

ELLICOTT DREDGES

Ellicott Dredges is a Baltimore, Maryland (USA) based supplier of quality-built cutter suction dredges.

The Ellicott brand name is known worldwide for durable, capable, and versatile dredges, going back to the original construction of the Panama Canal. Ellicott manufacturing plants are located in Baltimore, Maryland, and New Richmond, Wisconsin.

KOFA INTERNATIONAL

Kofa International (SME) Co. is a U.S. based Equipment Supplier, Consulting and Financing Company.

ITALDRAGHE GROUP

Italdraghe SpA has decades of experience and is one of the foremost known dredgers, dredging solutions and marine equipment worldwide. The keywords for Italdraghe have always been quality, reliability, commitment and customer centricity: the raw materials are accurately chosen, the design is thought such to satisfy clients' needs and the company is always committed to keep the customer at the center of its activity.

Italdraghe purposes are to maintain high its manufacturing standards, to spread the value of Made in Italy quality and execute projects of increasing complexity. Italdraghe products fit a wide range of applications and industries such as maritime, metallurgical, mining, coal power, building material and renewable energy.
